FILTROS DE ACEITE CF

En Croix entendemos que el aparato respiratorio de un automóvil son los filtros y aunque no los vemos y muchas personas no saben que están ahí, son parte fundamental del funcionamiento óptimo de nuestro motor. Gracias a su función limpiadora, los filtros son decisivos para el buen funcionamiento y vida útil de los motores, para esto se requiere de un elevado nivel de calidad. No obstante, la calidad de los filtros no es algo que pueda apreciarse a simple vista, ya que no es fácil identificar las diferencias de calidad. A la hora de elegir la marca del filtro, pida productos de calidad certificada y una marca especializada como **Croix**.
